

## We All Need Health Care.

Over 600,000 Oregonians are now UNINSURED.

It costs \$10,880 a year for the average family to pay for health insurance. Many working families can no longer afford coverage, and an illness or accident can devastate lives and our economy.

We need you to help rebuild the Oregon Health Plan. Please urge policy-makers to find a balanced, effective Health Care SOLUTION for Oregonians.

**Health care isn't affordable or efficient anymore.**

- 1 in 10 children live without health coverage.
- 780,000 Oregonians have no prescription drug coverage.
- Emergency room visits by those without health insurance have increased 40%.
- Uninsured visits drive up costs for all, adding over \$1,200 a year to family health premiums.

**Community Health Centers are part of the solution.**

Providing a medical home for 230,000 Oregonians each year, Community Health Centers keep people out of emergency rooms and lower costs to the entire health care system.

## Necesitamos Acceso a un Programa de Salud.

Más de 600,000 personas que viven en Oregon no tienen aseguranza médica. Cuesta \$10,880 al año el pago de aseguranza médica para una familia. Muchas familias que tienen trabajo no pueden pagar esta aseguranza y en caso de una enfermedad o un accidente, puede devastar vidas y nuestra economía.

Necesitamos SU ayuda para reconstruir el Plan de Salud de Oregon. Por favor urge a los legisladores a encontrar un balance que sea efectivo para solucionar el programa de salud para personas que residen en Oregon.

## Por Favor Ayuda!

**Pide a nuestros legisladores una solución para el programa de salud.**

### **El programa de salud ya no es económico ni eficiente.**

- 1 en 10 niños viven sin aseguranza médica.
- 780,000 Oregonianos no tienen cobertura para recetas médicas.
- Las visitas de emergencia al hospital para los que no tienen aseguranza médica han subido un 40%.
- Las visitas sin aseguranza médica suben el costo para todos nosotros agregando más de \$1,200 al año en las primas de aseguranza médica.

### **Las clínicas médicas de la comunidad son parte de la solución.**

Ofreciendo servicio para 230,000 Oregonianos cada año, las clínicas médicas de la comunidad mantienen la gente fuera de las salas de emergencia en el hospital y reducen los costos del cuidado de salud.
